

Sets, Kits, and Outfits, Components List For Pneumatic Tool And Compressor Outfit: 250 Cfm Trailer Mounted

SC: 3820-98-E09
NSN: 3820-00-950-8584
LIN: P11866
TM: 9-5130-281-13&P

System Description

The PT & CO is a diesel engine driven trailer mounted rotary-screw compressor with integral storage compartments and pneumatic tools utilized by general construction military occupational specialty (MOS) 21J.

System Mission

Tools consist of a pavement breaker, rock drill, wood borer, nail driver, centrifugal pump, tamper, chain saw, circular saw and related accessories and safety equipment. The Compressor can provide up to 260 Cubic Feet/Minute (CFM) of air at 100 pounds per square inch (PSI). The refurbishment consists of Inspection and Repair of the trailer assembly, replacement of the P250-WDM H268 air compressor with a Model P260WIR, and loading of a new tool load.

This system is not currently in reset.

Reset Type

Reset Work (Field Level) - Work performed to correct equipment faults that are performed at the ORG/DS level; performed by unit level soldiers, augmented by contractor as required.

Reset Strategy

Units are to service PTCO as directed either by hours or conditions as specified in TM.

NSN conversions for IR part numbers may be found [here](#).

The PM SKOT Web main page has other helpful management data for the PTCO.

PM CE in Warren, Michigan is the PM of record for these and the 250CFM systems.

Reset Procedures

- Replace worn, broken, missing components IAW supply catalog.
- Reorder consumables IAW SC.
- Service SKO IAW TM to 10/20 (annual service) and LO.
- Service prime mover/trailer IAW platform guidance.

Reset Responsibility
